

AIRBUS **EC-120** COLIBRI

SAFE AND SPACIOUS

This modern design aircraft is among the most profitable and reliable helicopters in its category. It offers unmatched room and comfort for its passengers.

Designed for multipurpose missions, the Colibri uses cutting edge technology that simplifies maintenance and operating costs.

Its Turbomeca Arrius 2F motor puts out 716 horsepower which also makes its fuel consumption exceptionally low with just 2 L of fuel per minute.

Its Fenestron tail rotor offers the same safety and noise reduction advantages as the EC-130 B4.

EC-120 (standard)

Passengers 4 + pilot

Motor Turbine (Arriel)

EMPTY MASS

2,250 Pounds

1,025 Kilos
