

# AIRBUS S350 B2

## POWER AND FLEXIBILITY

In addition to its power and flexibility, the AIRBUS S350 B2 offers passengers improved comfort with a spacious enough cabin for five people. Its profitability is ensured by three cargo spaces which can hold up to a 600 lb load.

The AIRBUS S350 B2 is a multipurpose aircraft with an Arriel 1B turbine that generates 641 horsepower. This is a helicopter with proven flexibility and is the perfect aircraft for a wide variety of applications.

The AIRBUS S350 B2 is on the cutting edge of technology, combining all the most sought-after qualities required for airborne work and the transportation of passengers.
